Konzept

Der Zweck des Vereins ist die Errichtung eines internationalen künstlerischen und kulturellen Netzwerks. Dieses Netzwerk dient dem kulturellen und künstlerischen Austausch auf der Basis eines Dialogs. Wir machen uns zur Aufgabe, zeitgenössische Kunst durch Projekte, Ausstellungen und Workshops nicht nur in Deutschland sondern international vorzustellen und bekannt zu machen. Durch die Zusammenarbeit von Künstlern aus unterschiedlichen Ländern und von unterschiedlichen Kontinenten entsteht eine Basis des Austauschs und eine Diskussionsplattform, die Einblicke und Kenntnisse in unterschiedliche Kunst- und Kulturentwicklungen zulässt. Im Rahmen der Zusammenarbeit werden förderungswürdige, finanzschwache Künstler unterstützt. Wir sind uns der Bedeutung unserer gesellschaftlichen Teilhabe und des notwendigen Bildungsprozesses im Rahmen unserer weltbürgerlichen Verantwortung bewusst. Wir verfolgen ausschließlich gemeinnützige Zwecke und möchten durch unsere künstlerische und kulturelle Arbeit die Grundlage für ein nachhaltiges Handeln der Bevölkerung initiieren und fördern. Eine Einbeziehung der Bevölkerung des jeweiligen Landes erfolgt ohne Einschränkung von Alter, Geschlecht, Rasse und Religionszugehörigkeit, immer im Hinblick auf das jeweilige Projekt. Konzepte zu den jeweiligen Projekten erarbeiten wir zeitnah, um auf aktuelle Themen oder Ausschreibungen Bezug nehmen zu können. Durch begleitende Aktivitäten (Lesungen, Vorträge, Performances u.a.) trägt der Verein zur kulturellen Bildung bei.

It is our organization's objective to establish an international artistic and cultural network, opening a dialog for artistic and cultural exchange.

We have made it our goal to support and popularize contemporary art through projects, exhibits and workshops not only in Germany, but internationally.

Our cooperation with artists from different countries and different continents creates a basis for interchange and a platform for discussion, allowing a deeper understanding of the development of different arts and cultures.

As part of this cooperation, we support financially weak artists worthy of being sponsored.

We are aware that our participation in society has an impact and undertake the necessary process of education as part of our responsibility as a citizen of the world.

Our organization is strictly non-profit – our artistic and cultural work is intended to create and support the foundation for a lasting opening in the behavior of the people. The inclusion of the respective country's people is independent of age, gender, race and religion, and always corresponds to the specific project in question. We develop concepts for the individual projects shortly before they are implemented so we can refer to current themes and tenders. Through accompanying activities (readings, lectures, performances et al.), the organization contributes to cultural education.
